AIR-COOLER

FOG-MAKER

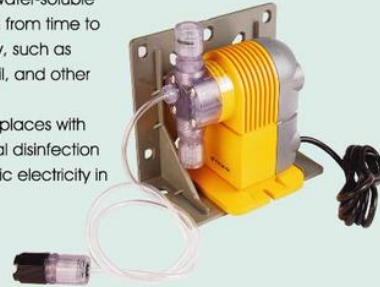

hydrodynamic force

AN HSIIN ENTERPRISE CO.,LTD

Fog-Maker & Air-Cooler

Name: Medicine-Adding Machine
 Function Description: water-soluble agents can be added from time to time with fixed quantity, such as fragrance, citronella oil, and other disinfecting agents.
 Scope of Application: places with biting midges, personal disinfection and elimination of static electricity in public places!

Name: Foldable Connected Tube
 Patent Number: PAT.NO.M266984
 Function Description: 1. Portable 2. Do not occupy much space 3. Easy to install
 Scope of Application: mobile occasions (wedding or farewell parties, night market, and etc.)

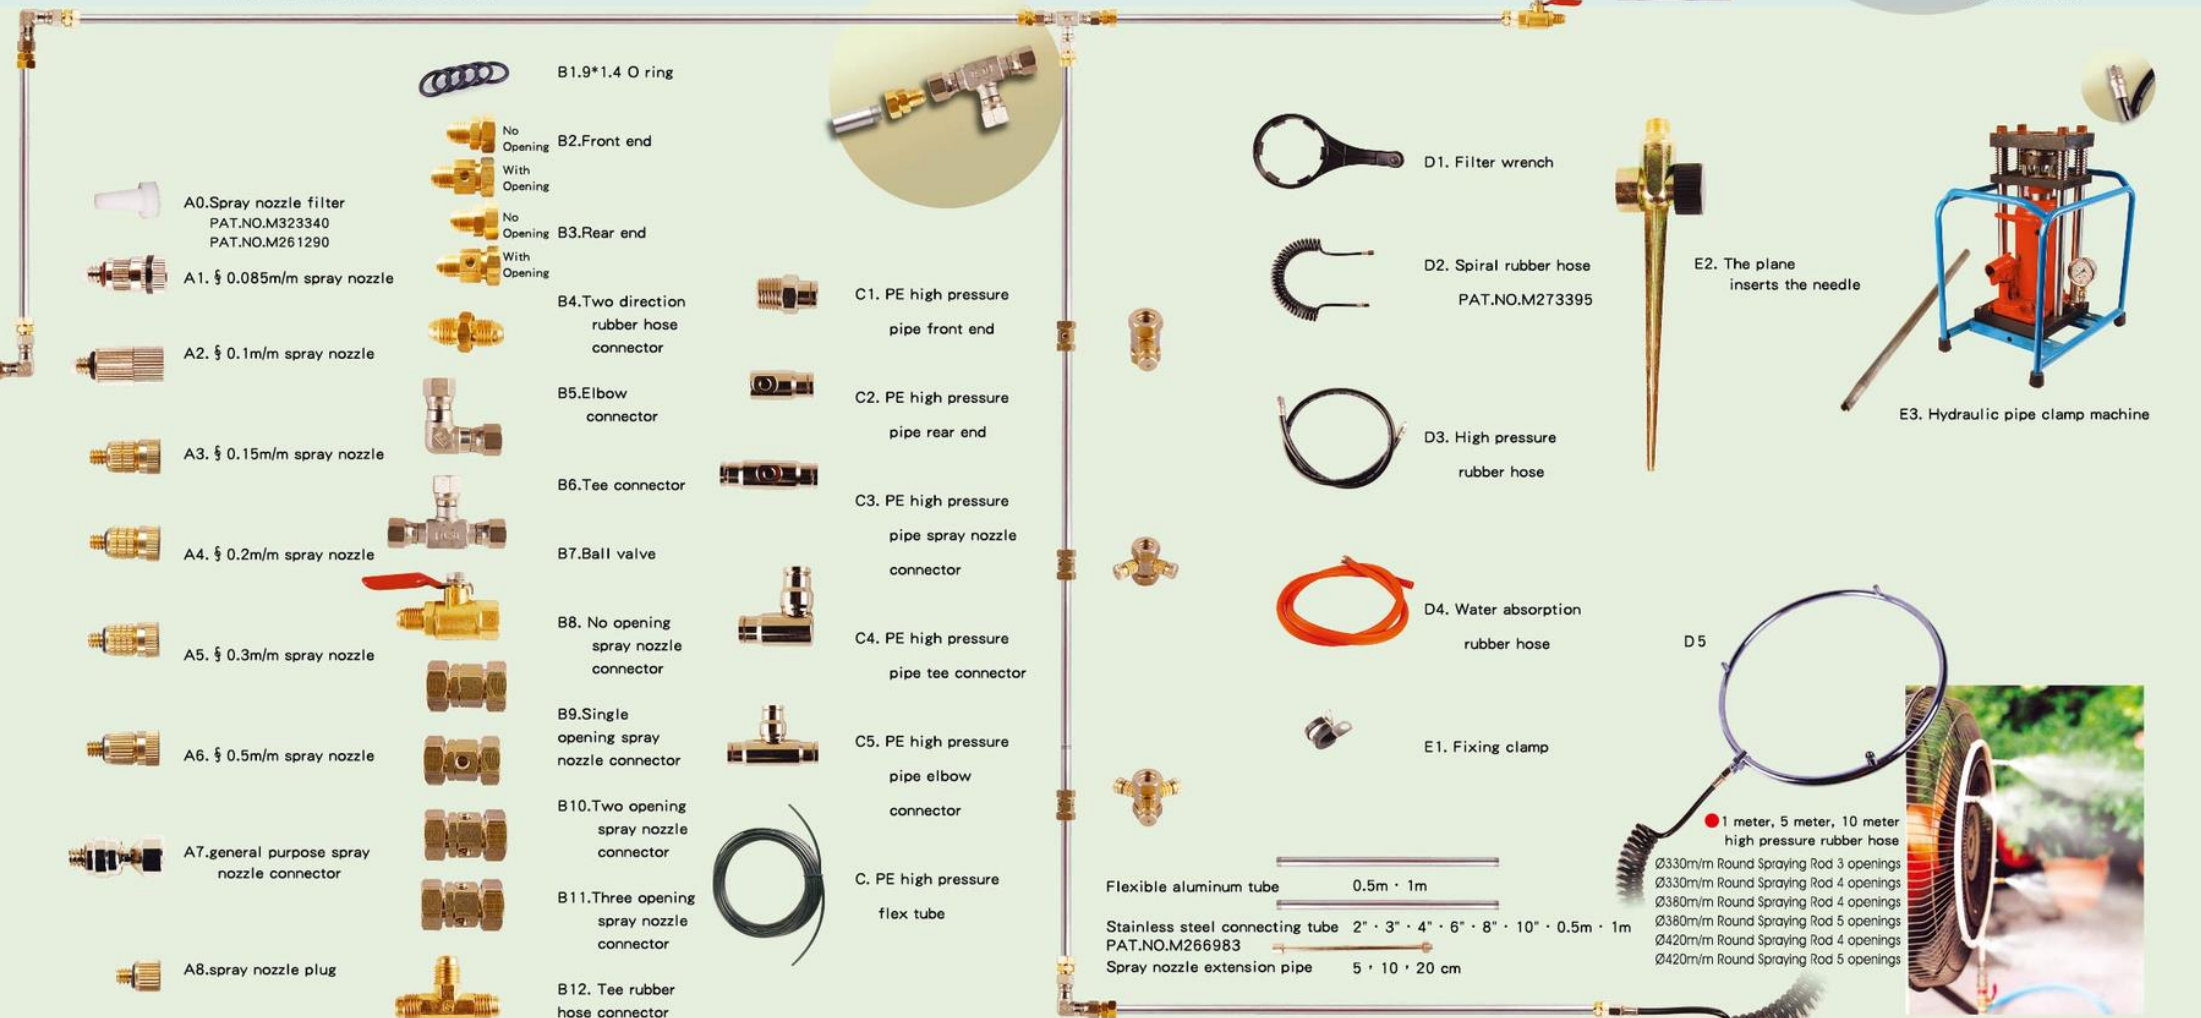

PAT. NO.M250081

Option

high performance
 remote control
 option

- 1.Spa Function
- 2.Multiple Spray
- 3.Greeting Customer Function
- 4.Temperature And Humidity Control
- 5.Timer Setting For Equipment On A Off
- 6.Automatic Cleaning Functions
- 7.Remind Time For Filter Oil Change

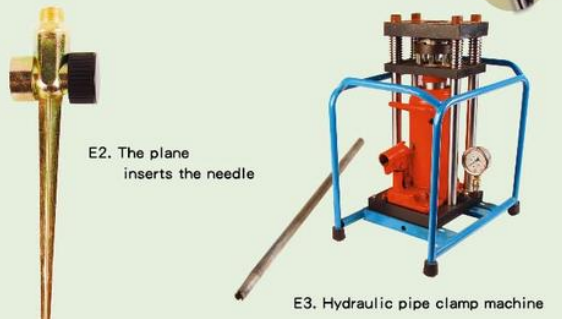

- A0. Spray nozzle filter
PAT.NO.M323340
PAT.NO.M261290
- A1. ϕ 0.085m/m spray nozzle
- A2. ϕ 0.1m/m spray nozzle
- A3. ϕ 0.15m/m spray nozzle
- A4. ϕ 0.2m/m spray nozzle
- A5. ϕ 0.3m/m spray nozzle
- A6. ϕ 0.5m/m spray nozzle
- A7. general purpose spray nozzle connector
- A8. spray nozzle plug

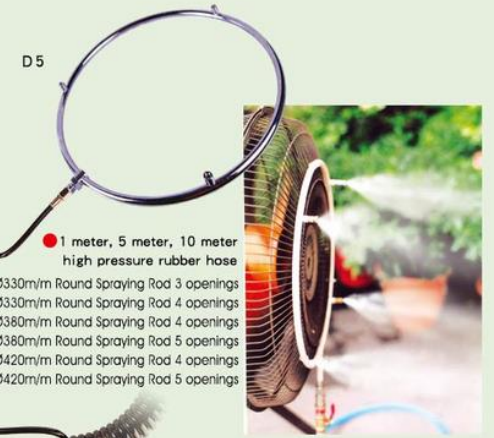

- B1. 9*1.4 O ring
- No Opening B2. Front end
- With Opening
- No Opening B3. Rear end
- With Opening
- B4. Two direction rubber hose connector
- B5. Elbow connector
- B6. Tee connector
- B7. Ball valve
- B8. No opening spray nozzle connector
- B9. Single opening spray nozzle connector
- B10. Two opening spray nozzle connector
- B11. Three opening spray nozzle connector
- B12. Tee rubber hose connector

- C1. PE high pressure pipe front end
- C2. PE high pressure pipe rear end
- C3. PE high pressure pipe spray nozzle connector
- C4. PE high pressure pipe tee connector
- C5. PE high pressure pipe elbow connector
- C. PE high pressure flex tube

- D1. Filter wrench
- D2. Spiral rubber hose
PAT.NO.M273395
- D3. High pressure rubber hose
- D4. Water absorption rubber hose
- E1. Fixing clamp

- Flexible aluminum tube 0.5m · 1m
- Stainless steel connecting tube 2" · 3" · 4" · 6" · 8" · 10" · 0.5m · 1m
PAT.NO.M266983
- Spray nozzle extension pipe 5 · 10 · 20 cm

- 1 meter, 5 meter, 10 meter high pressure rubber hose
- Ø330m/m Round Spraying Rod 3 openings
- Ø330m/m Round Spraying Rod 4 openings
- Ø380m/m Round Spraying Rod 4 openings
- Ø380m/m Round Spraying Rod 5 openings
- Ø420m/m Round Spraying Rod 4 openings
- Ø420m/m Round Spraying Rod 5 openings

High Pressure Fog Maker

FOG-MAKER & AIR-COOLER

Standard High Pressure Fogging Machine

● Filter ● Electric Control Box ● High Pressure Electromagnetic Valve

FEATURE

1. One piece formed structure, easy to move, easy to assemble
2. Proprietary patented connector, easy to dismantle, will never drip water.
3. Proprietary high performance pump, high efficiency
4. May be installed at any buildings, work with all types special connectors.
5. Have timed control valve, may set up operation time at will.
6. Simple structure, convenient to maintain.
7. Build in electric box, does not need additional electric box.
8. Stainless steel material, sturdy and beauty.

Economic High Pressure Fogging Machine

● Filter

MODEL	NM-FOG	
DIMENSIONS L/W/Hmm	Economic 380X290X320	Standard 600X380X567
PUMP TYPE	2 PISTON	
PRESSURE	60kg/cm ²	
DISCHARGE VOLUME l/min	4 l/min	
HP	0.5 HP	
VOLTAGE/Hz	110V/220V/60Hz	
TIMER	RUNNING TIME	3sec-30min
	STOPPING TIME	3sec-30min
NET WEIGHT kgs	30 kg	56 kg

NAME : High Pressure Spray Deceleration Pad

PAT.NO.M313549

Function Description :

Decompression spray pad not only has the function of deceleration (deceleration can bear 35 tons of high-pressure and safety reflecting board), but also has function of making fog by using top-down approach. It can eliminate the heat on ground because the sun generates heat during the daytime. The traditional fog pipe needs to overhead or dig the pipeline when the pipes need to be got through the passage or vehicle road. It is inconvenience to install. However, our products only need four ground nails to install, which is easier and convenience.

NEW

PATENT COMMODITY

Mobile Fogging Fan

Specification :

1. Voltage : 110V - 220V
2. Working pressure : 70kg/cm² (1000PSI)
3. Motor : 1/10HP
4. Nozzle Q'ty : 0.1MM nozzle *3
5. Max spray volume : 500 CC/min
6. Safety protection device : low-water power supply cut-off switch
7. Volume : 70CM*40CM*32CM
8. The size of the water tank : 32CM*32CM*29CM
9. Volume of the water tank : 29L
10. Weight of the fan : 7.38KG
11. Weight amount : 42.2KG
12. Control : Automatically controlled system

Function :

1. Can control manually and automatically.
2. Adjustable time controls.

Blow in the distance : 20M
Blowing angle : adjustable

Reduced Temperature/Maintains the humidity
Manufacture Mist/Disinfection

Application scope: car park, central reservation,

- Golf Course
- High-Temperature Casting
- Orchid Cultivation Field
- Orchid Marketplace
